

ISL Nexus - Health and Safety Guidelines 2026

All workers at International Steels Limited must wear Class A hard hats and high-visibility vests in the manufacturing zone. In case of a fire alarm, do not use elevators; immediately assemble at Rally Point B outside the main gate. Safety inspections are conducted every Friday at 10:00 AM by the Department Heads. For any medical emergency, directly contact the on-site clinic at extension 404.
